

Yule tide, tinsel and fire

Christmas is a time of joy
Anticipate it like a young boy

All is tinsel and fire
Carols sung by a church choir

Presents wrapped under the tree
There to be opened
By you and me
But wait and see

Snow falls all around
Soon covering the frosty ground

A time to be warm with friend or foe
And strangers alike

A child excited because
Santa is bringing a bike

A time for good will and laughter
Good wishes ever after

Drinking makes the heart merry
Then mistletoe and berry

Kiss that girl
The only one in the world

Christmas spirit is with everyone
Stars shine on

All is well
Has Santa been yet?
Not allowed to tell

Everyone caught up in the seasonal spell
Yule tide log burns slow
The fire glows
The flames flicker and dance
You drift off into a trance

As Christmas turns everything to wonder
And all that is good is given from above
Given with love

And lest we forget
And have any regret
Because a child was born
Even our Lord
Jesus Christ
Amen
