More positives....

Relaunch in Older Adult Services

Mitigating patient identification risk across NHS trusts

Mental Health Legislation

Ability to see prescriptions from GPs

Improve referral patient pathways

Rio is patient centred...

- Simpler – All information on a patient in one place.
- Safer – More holistic care.
Access to the details of what GPs have prescribed.

Links between patient records in IAPT, EPMA and Rio.

- Standardised – Less repeating patient story between services
